801
J7

CONDUCTED ON BEHALF OF THE ANATOMICAL SOCIETY
OF GREAT BRITAIN AND IRELAND BY

G. CAUSEY

W. J. HAMILTON

R. E. COUPLAND

R. L. HOLMES

J. T. EAYRS

J. D. LEVER

T. W. GLENISTER

G. J. ROMANES

E. G. GRAY

R. J. SCOTHORNE

R. J. HARRISON (EDITOR)

VOLUME 102

NOVEMBER 1967—MARCH 1968

CAMBRIDGE
AT THE UNIVERSITY PRESS

1968

PUBLISHED BY
THE SYNDICS OF THE CAMBRIDGE UNIVERSITY PRESS

Bentley House, P.O. Box 92, 200 Euston Road, London, N.W.1
American Branch: 32 East 57th Street, New York, N.Y. 10022

Printed in Great Britain at the University Printing House, Cambridge

Contents

PART 1—NOVEMBER 1967

	PAGE
The preimplantation conceptus of the mouse at 90 hours <i>post coitum</i> . By D. M. POTTS and I. B. WILSON	1
Cytological changes during cleavage and blastocyst formation in the rat. By SANDRA SCHLAFKE and ALLEN C. ENDERS	13
The development of mammalian dural venous sinuses with especial reference to the post-glenoid vein. By H. BUTLER	33
Changes in fine structure of developing intestinal epithelium associated with pinocytosis. By A. F. HAYWARD	57
Fine structure of human seminal vesicle epithelium. By A. RIVA	71
The lipid and glycogen content of rabbit articular hyaline and non-articular hyaline cartilage. By R. A. STOCKWELL	87
Behaviour of peripheral nerve structures in chronic neuropathies, with special reference to the Schwann cell. By J. OCHOA and J. D. VIAL	95
The morphology of the transitional lymphocyte in guinea-pig bone marrow. By C. ROSSE and J. M. YOFFEY	113
A variation in the course and distribution of the 'lateral striate artery'. By F. M. COLE	125
In Memoriam—JOHN SHORT	129
BOOK REVIEWS	131
PROCEEDINGS, APRIL 1967	135

PART 2—JANUARY 1968

The organization of the cortico-pontine system of the rabbit. By G. A. ABDEL-KADER	165
The cells of Cajal–Retzius in the developing human brain. By SERGE DUCKETT and A. G. E. PEARSE	183
The projection of the retina in the cat. By L. J. GAREY and T. P. S. POWELL	189
Histological and histochemical observations on the myenteric and submucous plexuses of mammals. By MARGARET GUNN	223
The contraction times and enzyme activity of two rabbit laryngeal muscles. By E. C. B. HALL-CRAGGS	241

	PAGE
Innervation of the cat's adrenal medulla. By E. MARLEY and GWENDA I PROUT	257
Some observations on the light cells of the thyroid gland of the pig in relation to thyrocalcitonin production. By B. A. YOUNG, A. D. CARE and T. DUNCAN	275
The early development of the knee joint in staged human embryos. By ERNEST GARDNER and R. O'RAHILLY	289
Metachromasia and alcian blue staining of the intervertebral disc of the cat. By W. F. BUTLER	301
Reduced articular processes of thoracic vertebrae, a 'minor skeletal variant' in the mouse. By D. R. JOHNSON	311
Comparative anatomical observations of the mammalian renal pelvis and medulla. By E. W. PFEIFFER	321
Observations on the morphology and histochemistry of the oviducts of the sheep. By O. ABDALLA	333
The origins of the hamstring muscles. By B. F. MARTIN	345
The blood supply of the vermiform appendix in Nigerians. By T. F. SOLANKE	353

PART 3—MARCH 1968

Environmental effects on cortical dendritic fields. I. Rearing in the dark. By P. D. COLEMAN and A. H. RIESEN	363
Cortico-cortical connexions of the cat visual areas. By M. E. WILSON	375
Trackless lesions in nervous tissues produced by high intensity focused ultra- sound (high frequency mechanical waves). By R. WARWICK and J. POND	387
The influence of the peripheral field on the morphogenesis of Hofmann's nucleus major of chick spinal cord. By P. N. DUBEY, D. K. KADASNE and V. S. GOSAVI	407
The effect of pH and various fixatives on isolated ox chromaffin granules with respect to the chromaffin reaction. By D. HOPWOOD	415
Developing chromaffin tissue in the rabbit: an electron microscopic study. By R. E. COUPLAND and BRENDA S. WEAKLEY	425
The ultrastructure of the normal dog adrenal. By J. M. B. BLOODWORTH, Jr. and K. L. POWERS	457
Distributions and morphology of the subcapsular and reticular cells of the ten-week-old rat thymus. By C. CHAN and G. SAINTE-MARIE	477
The effects of actinomycin D and of deamino-actinomycin C ₃ on the salivary glands of the rat. By H. MATERAZZI	493

	PAGE
Sertoli cells as phagocytes: an electron microscopic study. By I. CARR, E. J. CLEGG and G. A. MEEK	501
Fine structure of the early hair germ and dermal papilla in the human foetus. By A. S. BREATHNACH and JACQUELINE SMITH	511
The growth of hair follicles and its relation to the adjacent dermal structures. By G. H. MOFFAT	527
Undifferentiated cells in gastric mucosa. By F. R. JOHNSON and B. A. YOUNG	541
The surface of the syncytium of the human chorionic villus. By J. D. BOYD, W. J. HAMILTON and C. A. R. BOYD	553
REVIEWS	565
BOOKS RECEIVED	569
PROCEEDINGS, JULY 1967	571
INDEX AND SUPPLEMENTARY INDEX OF PROCEEDINGS	595
